## A RED LETTER SHOE DAY.

Today Hahn & Co.'s 3 Busy Stores.

Today will prove one of the most attractive Shoe days to prudent shoppers that our stores probably have had for many a day. In addition to the many price attractions of our great Midsummer Closing Sale, we shall of-

fer many broken sizes and Shoes of which we have entirely loo many at prices which represent only a mere fraction of their real value.

We are bent on unloading these Shoes, and no Shoe wearer can afford to miss this rare opportunity.

# 97c These Splendid \$1.50, \$2.00, 97c \$2.50 and \$3.00 Shoes ---

GREAT FALLS CYCLE PATH.

The Work on It Lags for Lack of

Money.

A meeting of the promoters of the Great

Falls cycle path which is now being built from the Anglers' clubbouse on the Con-

duit Road along the old roadway to Dick-

eys and Great Falls was held in the Ebbitt last night, and those present were urged to make an especial effort toward

from the committee on construction

quests From Washington.

The Exports Less and the Imports Greater Than in 1898.

The Loss Due Chiefly to Low Price of Brendstuffs and Cotton - Manufactures Sent Abroad Valued at About 8335,000,000-Balance in Our Fa-

pleted by the Treasury Bureau of Statis- made by those who had promised assistties yesterday. They show the total exports of the year to be \$1,227,443,425, against \$1,231,482,530 in the fiscal year 1598. The exports of the year thus fall but \$4,628,905 below those of 1898, and are \$155,990,000 larger than any preceding year of wheelmen, which will replace the force of the Peoria, III., branch of the Western the Peoria, III., branch of the Western the Peoria, III., branch of the Peoria, III., bra \$175,000,000 larger than any preceding year

The chief reduction in the value of exports during the year is in grain, of which the supply abroad in 1898 was unusually short, causing high prices as well as a greater demand for the products of the grain fields of the United States, the average price per bushel of wheat exported in the fiscal year 1898 being 58.30 cents, against an average of 74.77 cents in the fiscal year fust ended.

The reduction in exportations of grain is

The reduction in exportations of grain is evening at 8 o'clock. The reduction in exportations of grain is evening at 8 o clock. chiefly in price, the quantity of wheat exported being but about 10,000,000 bushels less than that of last year. Indeed, the reduction in wheat exports is more than the lis Arrested in Norfolk Upon Reoffset by the increased exports of four, of which the exports of 1899 are about 2,000,000 barrels in excess of those of last year, this increase more than equaling the reduction in the quantity of wheat ex- lice, on a charge of forgery. He gave it

quantity of exports, the number of bushels for 1899 being about 34,000,000 below that of 1858, when our corn exports were ab- Co. or loss, when our our expans were a mormally large because of the shortage in other breadstuffs abroad. There has also check was a forgery, been a reduction of about \$20,000,000 in.

The news of the arrest of Barr was re-

in the fiscal year 1899, as against \$290,-697,354 in 1898, an increase of about \$45,-690,090, though the exact details of the exports by classes cannot be given for

The imports of the year amounted to \$697,077,388, against \$616,649,654 in the fiscal year 1898, an increase of \$81,027,734. The increase of importations is largely in articles used in manufacturing, and sugar. The details of the year's imports by articles or classes are not yet completed yesterday's figures being simply the totals of imports and experts for the year.

### GIVEN HEAVY DAMAGES.

The Jury Awards \$25,000 to George W. Offntt.

In his suit against the Capital Traction Company for \$50,000 damages to his business, a jury in Circuit Court No. 2 swarded George W. Offutt \$25,000. The plaintiff for many years conducted a wholesale and retail grocery business on

M Street, a short distance above Thirty-second Street, and alleges that the shifting and sidetracking of the cars by the com-pany immediately in front of his place of business blocked the thoroughfare, and

Francisco to Give the Philippin Heroes a Royal Welcome.

San Francisco, July 13 .- San Francis vill turn herself loose tomorrow morn ing and give the Oregon troops a welcome home. The Oregon regiment will be mus tered out here. The volunteers will dis mbark at the Folsom Street wharf at 30 a. m., march along Market Street to Van Ness Avenue, and thence to the Presidio, where they will probably remain in camp for some time. Indications point

HONOR FOR OREGON TROOPS.

in camp for some time. Indicatous points to an immense outpouring to cheer the home-coming troops. The board of supervisors today extended the volunt ers the hospitality of the city.

Further interviews with many of the Oregon troops today only emphasized the opinious expressed yesterday that a much larger gray was needed to conquer Aguiirger army was needed to conquer Aquinaldo's followers. All agreed that the Filipinos as a whole were hostile to the Americans. Most of the officers and menrefuse to pass judgment ou General Otis, but generally say that a policy of great firmness and aggressiveness must be followed to bring peace to the islands.

The transport City of Para is in the stream with the Twenty-fourth Infanty and recruits, over 900 men in all. Tre vessel will start for Manila tonight. The expedition is under the command of Brig-adier General Schwan.

### A RIOT AT BRIDGETON.

Striking Glassblowers Seriously In-

Bridgeton, N. J., July 13 .- The town is n great excitement today over the glassof the non-union men crowded under the seats in terror. Two women who were with them fainted. Some of them were pulled through the windows by the ex-cited mob. Manager O. G. King, John Triance, and a Philadelphia detective, who out of town on the noon train, and they were glad to get away. The authorities are engaged in a still hunt for those who were concerned in the riot. Mayor Applegate says it is the first time the manu facturers have failed to notify him when they were expecting workmen and that had they done so he could have prevented OVERMAN A SUAVE ONE.

Meets His Former Employer Without Flinching.

From the evidence now at hand the poice are confident that in the capture of Edgar H. Overman, who was arrested Tuesday night by Detectives Weedon and Horne for an attempt to pass a forged check on Proprietor Scott, of the Howard House, they have apprehended a clever forger. As stated in The Times communiations received from several places are to the effect that he is wanted for alleged crooked dealings in other cities. He is now at the District jall, where he was committed in default of \$2,000 ball.

While in this city early in the present onth Overman registered at the Ebbitt louse as Benjamin Nachman, who is the president of the International Cable Directory Company of New York. Overman was in the employ of the company about two months ago as an advertising agent, but served in that capacity for only one week. This statement was made by Mr. Nachman last night at police headquarters. He came to the city yesterday in answer bitt last night, and those present were to a telegram sent him by the local police. urged to make an especial effort toward the was anxious to see the man who had raising the necessary money. A report impersonated him, and accompanied by Detective Horne visited Overman at the jail. Overman greeted his former employ-er cordially, and in a suave manner exshowed that the small force employed on the read this week had been engaged in the road this week had been engaged in the recting a fence along the first section of the path to prevent its use by others than bicyclists and pedestrians. The fence will be continued to what is known as the quarry, at the first grade. The committee that they should meet under such unfortunate circumstances. He declined to discuss his arrest or anything the continued to what is known as the quarry, at the first grade. The committee the rective first provided that they should meet under such unfortunate circumstances. He declined to discuss his arrest or anything that are would have nothing to say until the had seen his attorney.

> The Trouble Caused by Mr. Williams' Glass-Eyed "Jag."

(From the Arizona Republican.) There was wild excitement at the court beuse last night. A boy who had been sit-ting on a beach in the plaza ran into the sheriff's office, wild-eyed, with a story of a mysterious dead man. A man had just driven up to a hitching post back of the jail. Another man, undoubtedly dead, was lying in the buggy. The first man hitched Charles Barr, of this city, was arrested his horse quickly, meanwhile looking neryesterday in Norfolk, Va., for the local po-lice, on a charge of forgery. He gave it to the Norfolk and Washington Steamboat Company. The check was to the control of the burger of the burger of the control of the co to the Norfolk and Washington Steamboat Corn shows a considerable reduction in Company. The check was for \$10, and imagined they could detect signs of linpurported to be signed by J. H. Ralson & gering life. Others thought the signs were Co. After it was presented for payment the discovery was made that the check was a forgery.

New York, July 13.-Trading in the

day's stock market was in rather light

volume, but the dealings disclosed a demand for stocks which in the main seemed to be in excess of the supply. The market did not develop a general firm tone, however, until well along in the business session, and at the opening there was a combination of circumstances that served to unsettle confidence. The principal infuence seemed to be the announcement published this morning in response to the policy of the New York Life Insurance regarding its investments in railway shares. The announced purpose of the its funds therein being published with-out many enlightening details was nat-urally calculated to disturb sentiment. It is understood, however, that the comin great excitement today over the glass-blowers' riot this morning. Fifteen nonunion workmen came from the West to
take their places at the Comberland Glass
Works. The strikers met the car containing the men and took them from it
by force. All the glass in windows and
doors was broken by flying missiles. Many
of the non-union men crowded under the

the many works and Northern Pacific common tened to disclaim any such intention on their part. This last circumstance had a very reassuring effect, and before the close the rather curious incident seemed to pass out of discussion and notice. Aside from the effect of this matter there was an advance in the discount rate of the Bank of England, which received the greater attention on account of the con-tinued comparative closeness in the local greater attention on section for the local tinued comparative closeness in the local money market and the apprehensions of labor troubles on the lines of the New York transportation companies. Probably on account of the bank's action there were rumors current that there would be heavy able to be action there were rumors current that there would be heavy are of the rosiest, and, as has been pointed out on several occasions, the ultimate adjusted to the local money are of the rosiest, and, as has been pointed out on several occasions, the ultimate adjusted to the local money market and the apprehensions of labor troubles on the lines of the New York transportation companies. Probably many months. The price went up to 49.2-4. The highest since 1897, when it reached above 50. The prospects of this company are of the rosiest, and, as has been pointed to the local money market and the apprehensions of labor troubles on the lines of the New York transportation companies. Probably many months. The price went up to 49.2-4.

most directly concerned, but their pro-nounced weakness was not without in-fluence upon the remainder of the market. The strongest features of the market were again the Gould stocks, and New York Central. Doubtless the firmness, in these quarters were mainly owing to the general belief in the early announcement of im-portant progress in the work of unifying the securities and the management of these systems, but the strength of New York Central might rendily be referred to the Central might readily be referred to the excellent statement of earnings reported by the company for the month of June. excellent statement of earnings reported by the company for the month of June. The increase in gross earnings was equal to 15 per cent. Other firm features were Northern Pacific common, Archison pre-ferred, and Anaconda Mining. There was also a sharp rise in the curb finriket in Amaigamated Copper, a reflection of the strength of the last named. The market closed dull and steady.

"You show the had one stripes and all had the ording far from the state of the saloo trade in the first hand at the man the state of the saloo trade in the first hand the man of the geater part of the should like to visit Airdrie again. The boy was equal to the occasion, and the weapon of the weapon is an ordinary birch rod.

"Whilliams had just sold a team of mules the went of the strokes. It was not favorably impressed with the executioner. He was a big man, says below the was the whole row in the content of the strokes and the other far from the out. It was a cardial part the man the struck and the action of the residuate that the man waited such a long time between the strokes and confine the man of the stock that the man the production of the result and the s learned also that the holdings of the com-pany in question are not large, and that there is no intention of throwing them over in a lump at a sacrifice. This knowl-edge, when it was received in the street, caused renewed buying of stocks that had been dropped at the opening. As a mat-ter of fact, there is much the appear-sance of a big free advertisement for this

the story. The close of Brooklyn was af 113 5-8, showing a net loss for the day, but perhaps not a very serious one considering the circumstances. It is noticeable, however, that this stock has been selling lower and lower day by day, and there can be no doubt that it is losing friends. who ther people who sell out their Brock-lyn are making a mistake or not nobody knows, perhaps. Manhattan and Metro-politan were apparently little affected by the Brocklyn weakness, both closing at about the level of the opening.

Northern Facific common and Missour Northern facilic common and allisour Pacific were the features of the day among the strong stocks. Northern Pacific wen-to 51, the top price of this movement, and closed at the top. Missouri Pacific went as high as 49 1-8, and closed within half a point of the top, showing a good net gain for the day. The gossip of Northera Pa-cific common has been extremely bullish during the past week, as has been in this column. It is now a fairly well es-tablished fact that there will be another I per cent dividend on the stock in August making the total for the year 3 per cent quick and large advance and there is a disposition to take profits in it at present, although it is not doubted that it will go higher in the near future on the excellent outlook for the system.

shares. The announced purpose of the company to ilquidate its investments in buy the low priced securities that have rail any stocks and to place no more of good prospects, rather than the standard issues, has been commented on. ture of the market is particularly noticea ble every day, nearly all of this class o stocks showing more activity than at any Huntington securities. It is the opinion of some of the best informed people in the street that these securities will all sell at much higher levels during the coming two months. In general the earnings of the various roads have shown large increases during the past year, and in many cases dividends are in sight even in the lower priced stocks of the list.

shipments of gold this week. These were credited to a remarkable degree in face of their inherent improbability in view of the state of the market and foreign exchanges, and they were at least the cause of some of the earlier selling.

The uneasiness regarding the labor situation on the local transportation lines was naturally most effective in the cases most directly concerned, but their propagated weakness was not without the cases and the pointed varies of the stock is assured. It has been pointed out on several occasions, the ultimate advance of the stock is assured. It has been pointed out on several occasions, the ultimate advance of the stock is assured. It has been pointed out on the stock is assured. It has been pointed out on the stock is in- ty is a very small price for a 3 per cent-ket. stock.

The grangers were strong yesterday, but not buoyant or especially active. The ten-dency of the street to neglect these stocks somewhat has been noticeable within the past few days. It is not considered in any way an indication of weakness, but after their large advances recently attention is naturally diverted to other hitherto inactive securities that show a tendency to advance under careful clique work. St. Paul and Atchison preferred are the best liked of the group.

Louisville and Nashville was again one of the strongest stocks on the list. It showed little inclination to decline in the early weakness of the general market and later advanced, though slowly, closing at 723-8, within an eighth of the highest price for the day.

New York newspapers are reviving the story published in this column several months ago to the effect that railway affairs are tending strongly toward the con-solidation of the Northern railways into three great transcontinental lines, under the management of the New York Central, the Pennsylvania, and the Balti-more and Ohio. The Vanderbilt plan has been discussed fully in this column, and probably will be the first to reach consummation. The combination of the Atchison with the Pennsylvania is also said to be one of the deals that may be completed at any time, and the buying of the stocks of both of these roads by the same parties is commented on. The Baltimore and Ohio, if it is to become a transcontinental line, will naturally reach the Pacific Coast by way of the Northern Pacific and the Great Northern.

The question of the bank statement is a most interesting one, and it is fortunate for the market, perhaps, that its complexion is well nigh certain. The New York banks have been receiving money of the Texas flood has diverted attention from the interior during the entire week and it is probable that an increase of reserves of at least \$5,000,000 will be shown. The chances of tight money at presents are remote.

On the cotton market, and it practically makes no difference to the professionals whether the Texas loss is very heavy or insignificant. As a matter of fact, the loss of the Texas flood has diverted attention from other sections of Texas, where the prospects are considered decidedly favorable.

Liverpool is gursuing a conservative will again most.

THE CHICAGO GRAIN MARKET Wheat Railies Weakly at the Open

ing, But Falls Back. Chicago, July 13.-Wheat closed 1-265-8c inder Wednesday. There was a weak opening raffy of 5-8c, and then this was lost. It was a small trade. The cash demand was poor everywhere, at the sea-board, and particularly poor here. What board, and particularly poor here. What-ever firmness the market showed tempo-rarily was in sympathy with the North-west. There were rains through Minne-sota and South Dakota, and Minneapolis talked too much wet weather today. Minneapois and Duitth were relatively firm. Receipts and Duitth were relatively firm. Receipts showed practically no interruption to the big movement, 883,000 bushels at primary points compared with 175,000 bushels last year. Paris was firm. Liverpool and London steady. The official French report had been reduced to 318,000,000, compared with 350,00,000 last year.

Slight Advances Due to Higher Liverpool Prices.

[Received daily by E. A. Bowers & Co., brokers, Washington Loan and Trust Building, correspondents Ware & Leland, Chicago; Purnell, Hagaman & Co., New York.]

New York, July 13.-Again the question of low prices is being used with some effect on the cotton market, and it practically

course and the market will again most probably hinge on the daily reports from that city. Cables this morning were higher than looked for, which brought in some buyers, advancing New York opening prices two to three points. Shorts covered to some extent, but most of the business was scalping. Weather was perfection in every scalping. Weather was perfection in every State. There was an utter absence of the slightest news bearing upon cotton. The bulk of business this morning consist of of exchanging August for later months. Da-bles were one-half to one point higher, and spot sales 19,009.

November, 5,69 5,9 5,69 5,69 A CURIOUS WELL IN HAWAII.

The Flow of Artesian Water Regulated by the Clock. (From the Hawaiian Star.) A most curious phenomenon has been ob-served in the flow of an artesian well on Kealia plantation, Kanal. The water has

regular variations in its flow, being lowest at 8 o'clock in the morning, gradually ris-ing until it attains its greatest flow at 2 o'clock in the afternoon, and then as gradually falling until 8 o'clock in the morn-

Manager George H. Fairchild, of the plantation, thus describes the peculiar phe-The top of the pipe is thirteen feet above

the sea level. At eight feet there is a flow of about 1,009,000 gallons in twenty-four hours. By adding 5 feet more of pipe the flow stops. We have had this extra five feet of pipe on top of the well for a month or more, waiting for extra pipe to con-duct the water to the mill, where it is to be used. We have noticed a peculiar action of the column of water, and I have been unable to find any explanation of it. If the publication of the facts by the Star will lead to explanation, I will be very much gratified.

"The column of water in this five feet "The column of water in this five feet additional pipe placed to prevent the flow at 8 o'clock in the morning is at its lowest point, one and one-half inches below the top of the pipe. Then it rises until noon it begins to flow over the pipe. The flow increases until 2 o'clock, when there is quite a flow. From that time it gradually fails, until at 11 o'clock at night there is a very slight flow, and this ceases at 1 o'clock in the morning the water gradually fail. very slight flow, and this ceases at 1 o'clock in the morning, the water gradually faling until it reaches the lowest point at so'clock, when it begins to rise again.

"It has been suggested that this change in flow is due to the tides, or to the rotation of the earth, or to the influence of the

**Keactions.** believe that this is a BULL MARKET, and it is only at the start of a big up swing, we expect frequent reactions, and advece grounds on bulges after a two or three advance, buying only on recessions. But if buy AT ANY PRICE it will not be necession to take a loss, unless you overload, be prices be materially higher before they are much
